Profile

Software Developer, specializing in Front-End Web Development React.js. A graduated Bachelor of Business Informatics. My organizational skills and adaptability, along with being a team player are three of my biggest strengths.

Employment History

Front End Developer, Amdocs, Sofia

MARCH 2021 – PRESENT

- Designing, developing, modifying, debugging and/or maintaining software code according to functional, non-functional and technical design specifications.
- Investigating issues by reviewing/debugging code, providing fixes and workarounds, and review changes for operability to maintain existing software solutions.
- Working within a (SCRUM) team, collaborating and adding value through participation in peer code reviews, providing comments and suggestions, and working with cross functional teams to achieve goals.
- Integrated third-party APIs to provide additional functionality and improve user experience
- Utilized state management libraries such as Redux to manage the application's global state, ensuring seamless data flow and a consistent user interface.
- Worked on maintaining and developing a web-based end-to-end digital customer management and commerce platform; as well as customizing the platform for a specific client
- Technologies: HTML, CSS, JS fundamentals + ES6, React.JS, React Router, Redux, TypeScript, JSX, Git, npm, etc.
